

PARADISE LAKES

PROJECT BROCHURE

PARADISE LAKES

PROJECT OVERVIEW

Project - Paradise Lakes

Client - Urbis

Product Design - Charles Wentworth + David Shaw, 2021

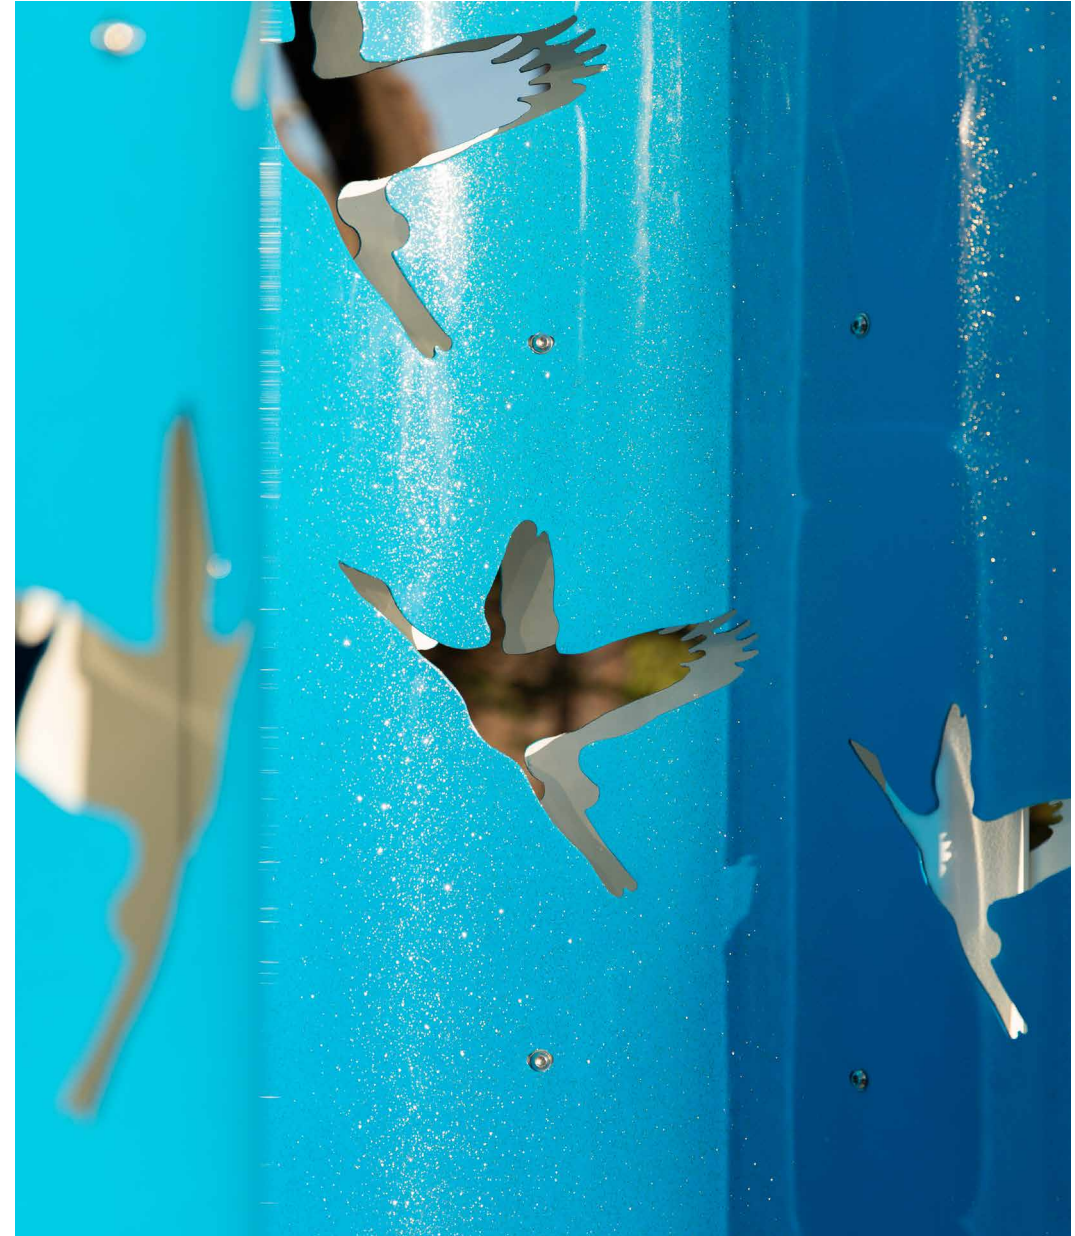

Context

Shaped to emulate the surrounding landscape, this sculpture stands proud at the entry to Paradise Lakes. It's soft, waving form is combined with a custom graded paint to create an organic structure that seems to almost unfold and glisten in the afternoon light. Developed in close collaboration with Urbis and Paradise Lakes themselves, this Entry Feature and Signage are a testament to the greater vision of the area and set the tone for the ongoing development.
