Bin Enclosures and Drinking Fountains.
To view the full Drape + Flight range, visit our
website.

Context

A selection of Drape Metal and Flight furniture
items were incorporated into the recent Weston
Group Centre / Trenerry Square Upgrade.

Considerations

Redbox Design Group's intent for the Weston
Group Centre Upgrade was a continuation of
the ACT Government's urban renewal initiative
of "Better Connections to Better Places".
In response to this initiative the aim of this
project was to bring new life to a run down
public infrastructure which now facilitates
and promotes active, healthy life styles and
stimulates economic activity within the
community.

Opportunities

The Drape Metal and Flight suites include
a cohesive range of furniture items that all
share visual cues.
